OUR CIRCULATION.

TIF WE mean to keep the following paragraph standing for the benefit of all whom it may concern: ADVERTISING. - We would commend the following facts to the attention of the advertising community. The "Wilmington Journal" circulates upwards of one THOUSAND COPIES weekly. Its circulation in the town of Wilmington is as large as that of any other paper published in the place. We would further state that its circulation in the counties which trade to this place is THREE TIMES as large as that of any other paper published in North Carolina, and that its list is daily increasing. We say, therefore, without the fear of contradiction, that it is the best vehicle for advertising which the people of Wilmington can select. One other observation. We think, that although a large majority of the readers of the "Journal" are Democrats, still they occasionally do a little trading, as well as the readers of the whig papers. We have written the above merely for the Information of those who are most deeply interested-business men of all professions and all political creeds-WHO WANT CUSTOMERS.

To give some idea of the amount of the Insensible Perspiration, we will state that the learned Dr. Lewenhock ascertained that five-rights of all we receive into the stomach, passed off by this means. In other words, if we eat and drink eight pounds per day, we evacuate five pounds of it by the Insensible Perspiration.

This is none other than the used up particles of the blood, and other juices giving place to the new and freshomes. To check this, therefore, is to retain in the system five-eights of all the virulent matter that nature demands should leave the body.

By a sudden transition from heat to cold, the pores are stopped the perspiration ceases, and disease begins at once to develope itself. Hence, a stoppage of this flow of the juices, originates so many complaints.

THE SUBSCRIBER BEsensible preceding figure is given to represent the insensible of an object of the body. It will be noticed that this perspiration flows uninterruptedly when we are in health, but ceases when we are
sick.—Life cannot be sustained without it. It is thrown
off from the blood and other juices of the body, and disposes by this means, of nearly all the impurities within
us. The language of Scripture is, "in the BLOOD is the
Life." If it ever becomes impure, it may be traced directly to the stoppage of the Insensible Perspiration.
Thus we see, all that is necessary when the blood is stagnant, or infected, is to open the pores, and it relieves itself from all impurity instantly. Its own heat and vitality are sufficient, without one particle of medicine, except to open the pores upon the surface. Thus we see
the folly of taking so much internal remedies. All pracsensible Perspiration. The Thompsonian, for instance,

was made on North Carolina in May last, about forty Companies had tendered their services that the reason why the recent call had not been so promptly answered, was the great change in the term of service—the first being for one year, and the latter during the war.

In reply to this, Mr. Reid, to whom Mr. Haralson also yielded the floor, replied that he also regretted that the troops had not been raised. He also regretted that the Whig Governor of N. tatives at which we are chagrined, and which fills our mind with no pleasing forebodings for the future destinies of the Union. On the 4th inst., Mr. Preston King, of New York, moved a postponement of the special order of the day for the purpose of introducing a bill for the purpose of placing at the disposal of the President the sum of \$30,000, to be used, if necessary, in negotiating a peace with Mexico; and also the further sum of two millions of dollars also for the purpose of enabling the Executive, should the contingency arrive, in the recess of Congress, to conclude a treaty of peace with that republic. The latter large sum to be placed at the disposal of the President for the purpose, should it be required, of adjusting the question of future boundary between the United States and Mexico. It is admitted, we believe, on all hands, that whenever a peace is concluded, the only means which Mexico will possibly have in her power for indemnifying us for the expenses of the war, as well as for the wrongs which she has done to us antecedent to the breaking out of hostilities, will be the cession of territory, and that in arranging this latter question, the Executive may want a large sum of money; and hence the clause of the bill placing at his which to make party capital, are most "thank. disposal two millions of dollars. He told them he had hoped that this matter, with all its unpleasant recollections, had long since been consigned to the tomb of the Capulets; but now what did we see? Honorable gentlemen consuming the public time, and stirring up the elements of party strife, and all for the purpose of hunting down a vagrant eighty-one dollars-and that, too, when the whole matter had been investigated by the last Legislature and put to sleep. Did gentlemen wish another investigation? If so, on the part of Col. Wheeler he challenged it; and indeed he should hold them bound to investigate, after the remarks they had submitted to the House. each type has its own key; and attached to the key is a lever, which, when the key is touched, pushes out one type into what may be called a railway track, where there is an endless chain in operation for conveying the types into a little box, where they are received and piled up in a line. By an index before him, the compositor sees at once when his line is completed. He then stops the machine. gives the full line signal to his assistant, who opens the box and slides the line into its column of printed matter. The assistant then adjusts the line, and if leaded composition, he adds a lead, and about as soon as he has this done, the compositor has another line ready for him! In fact the types jump into the composing "stick" (or "box," as the new term is.) as fast as the compositor can touch the keys. Every time he touches a key he sets a type. How to Prosper in Business .- In the first place, make up your mind to accomplish what ever vou undertake, decide upon some particular employment, persevere in it. All difficulties are overcome by diligence and assid-

Be not afraid to work with your own hands, and diligently too. "A cat in gloves catches no mice." "He who remains in the mill grinds, not he who goes and comes." Attend to your own business, and never trust it to another. "A pot that belongs to many, is ill stirred and worse boiled."

Be frugal, "That which will not make a pot, will make a pot-lid." "Save the pence. and the pounds will take care of themselves." Be abstemious. "Who dainties love, shall beggårs prove."

Rise early. "The sleeping fox catches no poultry." "Plow deep while sluggards sleep, and you will have corn to sell and keep." Treat every one with respect and civility. "Every thing is gained and nothing lost by courtesey." "Good manners insure success." Never anticipate wealth from any other source than labor: especially never place dependence upon becoming the possessor of an inheritance. "He who waits for dead men's shoes, may have to go for a long time barefoot.' "He who runs after a shadow, has a wearisom

Above all things never despair. "God is where he was." "Heaven helps those who help themselves." Follow implicitly these precepts, and nothing can hinder you from accumulating. Western Paper.

Gens. Scott and Taylor.—The New York Tribune learns from unquestionable sources, that as early as August last, letters were received at Washington from confidential friends of General Taylor, some of them indeed in his staff, stating that the presence of General Scott would be highly acceptable to him; and this fact we believe was known to the War Department before General Scott was assigned to the command.—Baltimo Clipper.

The War Balloon .- Mr. Wise, the gronant, has published another communication relative to the balloon which is to be the means of battering down the walls of San Juan d'Ulloa, and of utterly demolishing the city of Mexico. He proposes to construct a balloon 100 feet in diameter, capable of containing 32,715 pounds. which he thinks will leave a net power of 20,842 pounds for missiles, bombs, &c. The car is to be in the shape of a cone, and a manœuvering rope is to be supported by "Bury Balloons," which Mr. W. says "would answer the purpose for sentry stations." The shape of the car would cause the shot that might hit made shot proof, it is not clearly explained.

The Editor of the Old Dominion & New Era, published at Portsmouth, Va., writes as follows, Dec. 24, 1846:
Dr. Wistar's Balsam of Wild Cherry—A Deserved
Natice—We had been for some days suffering under severe inflammation of the lungs, produced by cold, and irritated by speaking in public, so that throughout Sa-turday night, Sunday, Monday, till Tuesday, the symps of disease seemed to inc case, and the suffering intense, without the least appetite for food. The cough was dry and hard, causing the most acute pains in the head and back. We had fairly given up all hopes of relief. When we thought of this Balsam, and we sent round to our friend. HEINITCH, for a bottle. We took the first dose according to directions, and almost instantly felt a glow of healthy warmth through the system. this was at two o'clock -at five, we took another, and we soon after detected a perceptible relief in the fre-quency of the spasms and violent pains, that had before attended them. At three in the morning we took another dose, and the phiegm though tought, yellow and roby, is ejected from the slungs with comparative case. We feel grateful for the releif afforded, and recommend a trial of it by all who are suffering as we suffered. We have deemed it due to the medicine, and to h y, to give this unsought testimonial to the virtue of the

Balsam, in our case.

Form of guarantee to accompany each bid: " The undersigned [here insert the name of the guarantor or guarantors] guaranties that, [bere insert name of bidder or names of bidders, as the case may be,] if his (or their) bid for carrying the mail from to be accepted by the Postmaster General, shall enter into an obligation 2927: From Lincolnton, by Killiam's Mills, Early Grove, Newton c h, and Fisher's, to Catawha View. 29 miles & back, once a week

> INSTRUCTIONS Seven minutes are allowed for ope ag the mails at all offices where no is specified; but on rail road and outes there is to be no more delay

> 2. The man is to be conveyed eight and busk require it.
>
> 3. Post office blanks, mail bags, and the special

charge on the principal railroad and steamboat lines, where the size of the mails and the number of the officers will require their employment by the department; and in that case, a separate a-partment for the assorting and safe-keeping of the mail is to be provided by the contractor, under the direction of the department.

5. In all casee there is to be a forfeiture of the pay of the trip, when the trip is not run; a forfei pay of the trip, when the trip is not run; a lorfei-ture of at least one-fourth part of it when the run-ning or arrived is so far behind time as to losse the connexion with a depending mail; and a forfeiture of a due proportion of it when a grade of service is rendered inferior to that in the contract. These forfeitures may be increased into penalties of highor amount, according to the nature or frequency of the failure and the importance of the mail.

6. Fines will be imposed, unless the delinquency be satisfactorily explained in due time for fill-

ing to take from, or deliver at, a post office, the mail, or any part of it; for suffering it to be wet, injured, lost, or destroyed; for conveying it in a place or manner that exposes it to depredation, loss, or injury; for refusing after demand to convey a mail by any coach, railroad car, or steam boat, which the contractor regularly runs on the route beyond the specified number of trips in the contract, and for not arriving at the time set; and for setting up or running an express to transmit commercial intelligence in advance of the mail, a penalty will be exacted equal to a quarter's pay.

7. The Postmaster General may annul the contract for repeated failures; for violating the post office laws; for disobeying the instructions of the department; for refusing to discharge a carrier when required by the dapartment; for assigning the contract without the consent of the Postmas. ter General, or for setting up or running an express as aforesaid.

8. The Postmaster General may alter the contract, and alter the schedule, he allowing a pro rata increase of compensation, within the restric-tions imposed by law, for the additional service required, or for the increased speed, if the employ-ment of additional stock or carriers is rendered necessary; but the contractor may, in rsuch case, relinquish the contract, on timely notice, if he prefers it to the change. The Postmaster General may annul the contract or curtail the service, and pay when he wishes to dispense with the service in whole or in part, or place a higher or different grade of service on the route, he allowing one nonth's extra pay on the amount dispensed with. 9. The payments will be made through drafts on post offices or otherwise, after the expiration of each quarter, say in February, May, August, and

10. The distances are given according to the pest information; but no increase pay will be allowed, should they prove to be greater than is advertised, if the places are correctly named. 11. The Postmaster General is prohibited by

law from knowingly making a contract for the transportation of the mail with any person who shall have entered into any combination, or proposed to enter into any combination, to prevent the making of any bid for a mail contract by any other person or persons, or who shall have made any agreement, or shall have given or performed, or promised to give or perform, any consideration to do, or not to do, anything whatever to induce any other person not to bid for a mail contract,-Particular attention is called to the 28th section of the act of 1836, prohibiting combinations to Mill river, Boilston, Claytonville, and David-

prevent bidding. 12. A bid received after time, to wit: the 10th March next, at 9 a m, or without the guaranty required by law, or that combines several routes in one sum of compensation, cannot be considered in competition with a regular proposal not adjudged to be extravagant.

13. A bidder may offer, where the transportation called for in the advertise to Clarksville, 118 miles and back, twice a ferior mode of conveyance, or to intermit service a specified number of days, weeks, or months. He may propose to omit an office that is inaccessible. or is not on the stage road, the railway, or at a steamboat landing, as the case may be; or he may offer to substitute an inferior mode of supplying in such cases. He may propose different days and hours of departure and arrival, provided no more 2940. 19. Under the act of 3d March, 1845, the rout is to be let to the lowest bidder, tendering sufficient guaranties for faithful performance, without other reference to the mode of transportation than may be necessary to provide for the due celerity, certainty, and security of such transportation. Grove Hill, from Warrenton, 9 miles and back, When the lowest bid proposes a mode of conreyance that is inadequate for the route in respect to the cerrainty, security, and celerity of the mails. aside from any accommodation for travel, it wil

not be entitled to the route. 20. When the bid does not name a mode of conveyance, it will be taken and understood to be for the lowest mode of conveyance, to wit: on horseback. When it proposes to carry according to the advertisement, and no mode of conveyance is stated for the route in the advertisement, it will be considered as offering only for horseback convey

21. Since the passage of the act of March 1845, a new description of bid has been received. It specifies no mode of conveyance, but engages to carry the mail with certainty, celerity, and security, using the terms of the law. These bids are called, from the manner in which they are designated on the books of the department, "star bids. It has been decided, after mature consideration, that a bid proposing a specific mode of conveyance of as high a grade as two-horse coach transports tion is to be preferred to the star bid. The experience of the department enables it to lay down the following rules, viz:

When the mail on the route is not so large at to require two horse coach conveyance, a star bid, if the lowest, will be preferred to the specific bid. 22. When the mails are of such size and weight as to render it necessary or expedient, " reference to them alone, to provide two-horse coach conveyance, the specific bid, though the highest, will be preferred to the star bid, to the extent of a moderate difference in the compens tion, in case the difference is not such as to interfere with the policy of the new law, which looks to a reduction in the cost of transportation. Exceptions, however, may be allowed where the star bid is made by the pres nt owner of the stock on the route, and it is manifest that the reasons for preferring the specific bid do not exist in his case. 23. On routes of the highest class, where foul horse coach or steamboat transportation is require by the size and importance of the mai's, the prefet cific bid will be, if n

ried to a greater extent of difference than ou the inferior coush routes, subject, however, to the exceptions above stated.
